

# Rola File Base

2560mm Fixed End.

3200mm Fixed End.

4160mm Fixed End.

## Introduction

Rola File Base is the choice where the need for adjustment and flexibility is required, for example on uneven surfaces. With a more industrial look, it's capable of storing a large volume of documents with enhanced sturdiness in a compact footprint. It's a versatile choice for many installations.

## Features

- Maximise the effective use of floor space in small to medium businesses.
- Pre-fabricated bases that do not require fixing to the floor or the cutting of floor coverings.
- Adjustable feet to allow for uneven floors.
- Wide range of standard configurations, whilst the modular design allows units to be configured to suit individual requirements.
- Lockable.
- Multiple storage level versions available.
- Full range of accessories available.
- Large diameter wheels for ease of movement.
- Easy to operate and easy to move.
- 10 year warranty.

## Specifications
